About This Game

MASTER THE ART OF WAR

In the darkest age of Japan, endless war leaves a country divided. It is the middle of the 16th Century in Feudal Japan. The country, once ruled by a unified government, is now split into many warring clans. Ten legendary warlords strive for supremacy as conspiracies and conflicts wither the empire. Only one will rise above all to win the heart of a nation as the new shogun...The others will die by his sword.

Take on the role of one Daimyo, the clan leader, and use military engagements, economics and diplomacy to achieve the ultimate goal: re-unite Japan under his supreme command and become the new Shogun – the undisputed ruler of a pacified nation.

Game Features

Total War: SHOGUN 2 features enhanced full 3D battles via land and sea, which made a name for the series, as well as the tactical campaign map that many refer to as the heart and soul of Total War. The game is a cheap version of the real game instead of just copy/pasting the game they just made it even more terrible i can never find a game and the only 2 Connection points are appstore and steam witch apearantly no one buys here you can see really game breaking glitches like in Acention monkeys sometimes glitch out and you never see them and you infinately stuck in the same round it happend to me 2 times and also sometimes zombies turn invisible in multiplayer you could say it's lagg but me and the (only person i found) had 280 to 260 ping, the screen is cut, you cant improve your graphics?? only Full screen and lighting the game makes it imposible to eaven socialize with the only peapole you meat eaver because there is no support from mic or character speach commands. it annoys me how no one is caring about Pc gaming the only games that i played that are equal or better on the pc than in console are Minecraft (not on steam) Fallout 3 and new vegas also skyrim and also the only thing that this game did right is that it atleast cared about the Mac community and it reduced the cuality anyway i have black ops in pc mac xbox and ps3 and this is what i get... i whas a very big fan now i am highley disapointed you need to fix this trearch specialy now that your loosing fans for doing the same crap every year my rating 45/100. Warning: does not work, at all. I walked around the house for 10 minutes and nothing happened. I saw the store page video and nothing like that happens in VR. So basically, you're paying to walk around a Unity asset house layout.. A sumptuous homage to the isometric action adventure games popularised by companies such as Ultimate in the eighties, brought up to date with graphics and polish from the modern era. The level design perfectly walks the line between exploration and hair-pulling frustration (although you'll always want to have *just one more* go) and the game is festooned with tributes to games and game developers from that era.

If you're a fan of games like Knight Lore, Head over Heels, Sweevo's World and their ilk or just fancy trying something different from the usual fare, I'd highly recommend it.. this is terrible, wish i refunded when i had the chance. It's a fun game if you like NASCAR, I just wish more people would play and online would liven up a bit more. I wouldn't say the online is dead, alot of the issue is people think it's dead... Everytime I've played, there's never an open server, appearing to be no one online, but every single time me and my buddy open up a game and cuz there are no other games, people join us and we've gotten up to 5 people in <30 Mins, so it's not booming but you can play online.. Recommended. \ud83d\ude4d

Grate game! Really recomand to anyone who likes to explore every thing.. this is ugly but one hundred percent better than my wife :)
she will never read it, because she is too stupid. *_* S.E.A.L.E.D FASHIONISTAS CLUB *_*. not bad for outstanding !! 6/10.
A good standard tower defense game. Still requires a bit of polishing regardling the graphics but fun to play. Customising your towers is an important part of the game and getting it wrong causes the level to fall apart quickly.. Not what I expected from a Painkiller game. I loved the Black edition, but this is just not good. Extremely long load times, like I thought it had crashed since it was taking so long. Its not evident where to go which is annoying. Bugs. Didn't keep my saves properly causing me to have to replay parts. Skip this one and move on.
