0.51386 error show in the log. No matter the arguments, or... Can anyone help me in creating reports in 13.0.5? More details: i am using 32-bit windows 10 (first time in windows). I have tried this on IE as well as chrome browsers. I have also tried the "open" report with... I have successfully installed and used the Garmin Express and MapSource tool for our new CR 13.0.5 and updated the latest drivers for them. However, in using both we have noticed some reports not being... i am having a problem with the accuracy of the gps in our cr 13.0.5: I have checked all the settings and they seem to be in the correct order. When I try to use the following code to get the distance and... I am using Windows 10 and both Windows Explorer and Chrome are reporting an incorrect time on the desktop, as is the time displayed in the start bar. We are using Garmin Express and its GPS for Windows..... I'm trying to use "build it" on mapsource (to configure the GPS for a FRT series 7 TDE) and it will always say this error : "The app\mapsource' failed to start. Some of your apps haven't been... I have a MacBook Pro (5, 8gb RAM, 500gb HD) with OS X Mavericks. I am using inbuilt laptop GPS (a Garmin 12) and for routing I have bought a Garmin Edge. I like the Edge a lot for its simplicity... I have a Logitech G15 with no GPS antenna. I've used a Powersource as a substitute for the antenna on my old Acer Aspire 5751. I also use GStreetmap Navigator. I've had issues with both when using Waze.... I have received an error on the 13.0.5 map on iOS 7 when using the GPS Fix from the GARMIN Connect App. The error is: "Sorry, this feature requires a view of the sky. (Map exited due to an error.)" The... My Garmin device shows that GPS is on and available, but the GPS signal quality is too low to have a usable fix. I've already updated drivers and maps to the latest and been using that for a few weeks with... I've been using the Windows 8 SDK to do GPS testing on my Windows 8
